

FIG. 1

FIG. 2

A schematic diagram of a rectangular structure 50, which appears to be a cross-section of a multi-layered material. The structure is composed of several layers. The top layer is divided into three sections, with the left and right sections labeled 52 and the middle section labeled 54. Below this top layer is a thicker middle layer, which is also divided into three sections. The left and right sections of this middle layer are labeled 58, and the central section is labeled 60. The entire structure is bounded by a thin outer layer, with the left and right boundaries labeled 56. Arrows point from the labels 50, 51, 52, 54, 56, 58, and 60 to their respective parts of the structure.
